

DELEGATES LEAVE  
FOR THEIR HOMESREPUBLICAN LEAGUE MEM-  
BERS-SCATTER TODAY.

Many Will Remain, However, to Greet Governor McKinley on His Arrival This Evening—General McAlpin Is Elected President—Currency Question Was Shelved.

Cleveland, June 21.—Many of the delegates to the National League are leaving for home this morning, but many will stay here, to greet Governor McKinley on his arrival to-night.

Cleveland, Ohio, June 21.—It was 2 o'clock yesterday morning when the subcommittee on resolutions of the league, which had been in secret session, adjourned.

Mr. Blackwell of Massachusetts presented a resolution inclining very strongly toward the gold standard and numerous other resolutions expressing all sorts of views on the money question followed in quick succession. Senator Dubois of Idaho and Mr. C. E. Allen of Utah fought for free coinage, making vigorous speeches, which were listened to with close attention. They spoke for free coinage at 16 to 1 without waiting for the co-operation of any other nation. A resolution was offered declaring that it is not the duty of the league to adopt a platform for the republican party, as that important action should be left to the national convention, which nominates presidential candidates.

Messrs. Dubois and Allen vigorously opposed this resolution, holding that it was the duty of the league to declare its principles. The gold men spoke in favor of the resolution and the vote was 9 to 2 in its favor.

When President Tracy called the convention to order the first thing done was the appointment of Senator-elect Thurston of Nebraska, H. Clay Evans of Tennessee, ex-Gov. Prince of New Mexico, Messrs. Goodnow of Minnesota and Buck of Georgia to wait on Senator Warner Miller of New York and invite him to address the convention. On the report of the committee on rules of the Reed house and the Denver convention were adopted. The Hon. Warner Miller then addressed the convention. He argued forcibly against the tariff being taken out of politics. The republicans were not for a tariff for revenue only, but for a tariff for a surplus also. The argument for the Monroe doctrine and the Hawaiian flag on Hawaiian soil was vigorous.

He argued at length for sound money and such a reorganization of the banking system as would extend the circulating medium without dependence on government bonds for the issue of bank notes. He hoped the party would stand by its record for bimetalism on a parity.

As the committee on resolutions was not ready to report an opportunity was given all to offer resolutions which were referred without debate. Resolutions poured in on the Cuban insurgents, Hawaiian republic, the Armenians, and all other foreign subjects. Blackwell of Massachusetts offered a resolution favoring the right of women to vote at all elections, and congratulating the women of Wyoming and Colorado upon their possession of the elective franchise. Mr. Blackwell also offered a resolution arraigning the administration for its Turkish policy. O. Driscoll of Maryland offered a resolution providing for a protective tariff, reciprocity, honest elections, gold, silver and paper on a parity, aggressive foreign policy, etc.

The convention will not indorse any proposition on the financial or any other question. Such was the agreement of the committee on resolutions after an almost continuous session of twenty-four hours. This conclusion was reached last night about 6 o'clock. Ex-United States Senator Patton of Michigan offered the following substitute for all propositions before the committee and it was unanimously adopted:

"Whereas, Sec. 13 of the constitution of the Republican League of the United States says: 'This league shall not in any manner endeavor to influence the action of a national, state, county, or municipal convention, or the delegates of the Republican League of the United States in convention here assembled do hereby renew our allegiance to the principles of the Republican party and pledge our best efforts for the success of the candidates of that party. Believing that this convention has no instructions from the Republicans of the United States or jurisdiction under our constitution to frame or enunciate party platforms, we hereby refer all resolutions in relation to public questions to the Republican National convention of 1896, with entire confidence that its action will redound to the prosperity of our people and the continued glory and advancement of our country.'

At the afternoon session the committee on league work reported a gratifying increase and rapidly growing interest in all parts of the country in club organizations. The committee reported Milwaukee as the place for the next convention, the time to be fixed by the executive committee.

The convention then proceeded to the election of officers.

George B. Green, state president of New York, placed in nomination Gen. E. A. McAlpin for president. Gen. Clark E. Carr, on behalf of Illinois, seconded the nomination of Gen. McAlpin. Pennsylvania also seconded the nomination. Gen. McAlpin was elected president by acclamation.

Nominations for secretary were called for and Mr. Churchill of Colorado placed in nomination John F. Byrnes, while Illinois nominated William Grant Eden. Nebraska nominated L. E. Walker.

The morning session was short. It was taken up by ex-Senator Warner Miller's speech and the introduction of a number of resolutions on various subjects, many of them irrelevant to the work of the convention.

The convention at 6 o'clock in the evening adjourned until 10 o'clock this morning. The banquet tendered the delegates at the Arcade at night was a

most elaborate and brilliant affair. There were 1,550 plates turned on the ground floor, while the four balconies were filled with thousands of spectators.

National Educational Convention to Be Well Attended.

Denver, June 21.—Superintendent J. C. Nacnell of the Kansas City public schools, treasurer of the National Educational association, is in Denver, concluding arrangements for the annual convention to be held here July 5-12. He says that never in the history of the association have the prospects been so good for an immense gathering, and he estimates a gathering of 20,000. Dr. Nicholas Murray Butler of New York City, president of the association, puts the number at 30,000. Already accommodations have been applied for by letter for 7,500. The first opportunity offered to teachers to study the most interesting part of America promises to make the thirty-fourth annual convention by many thousands the largest ever held. The National Educational Association is the largest educational body in the world. It was established in Philadelphia in 1857.

## Cowardly Murder in Mexico.

City of Mexico, June 21.—Edward Stevenson, a Scotchman 20 years old, son of a former director of the Real del Monte Company, an English mining concern, was killed in a quarrel at Catorce by Manuel Bustamante, the stationmaster at Portero. The two men quarreled and fought and Stevenson repeatedly knocked his antagonists down. Bustamante got his pistol and shot Stevenson in the back. He died Saturday. The authorities are said to have been slow in arresting Bustamante. The British minister will request that the local authorities deal promptly with the case.

## More Fighting in Cuba.

Madrid, June 21.—It is reported here the Cuban insurgent Gomez has been captured.

New York, June 21.—A Cuban who was with Maceo in the battle of Jovito, near Guantanamo, reports the Cubans under Gen. Miro captured Gen. La Chambre and several of his staff May 15 near Manzanillo. Gen. La Chambre figured prominently in the beginning of the revolution. But Gen. Campos was dissatisfied with his work. A well-known Cuban in New York says he believes La Chambre allowed the insurgents to capture him and his men to spite Campos.

## American Mining Engineer Killed.

Jimenez, Mexico, June 21.—F. W. Lowry and Charles Simpson, two American mining engineers who left here about three weeks ago on a visit to mines in the Sierra Madre mountains, 100 miles southwest of here, became involved in a quarrel with the Mexican servant who accompanied them. The Mexican shot and killed Simpson and in turn was fatally shot by Lowry. The tragedy took place seventy-five miles from here. Lowry and Simpson came to Mexico from New York.

## Most Important Decision.

St. Paul, Minn., June 21.—Judge Canty of the Supreme court has reversed the decision of the lower court in the case of the First National Bank of Merrill, Wis., and the National New Haven Bank vs. The Northwestern Guarantee Loan and ex-Senator W. D. Washburn of Minneapolis as an officer of that company. The decision holds that an officer of a corporation is liable for the debts of the corporation when he is guilty of either unfaithfulness or dishonesty or neglect of duty.

## Closing Session of the A. O. U. W.

Chicago, June 21.—After a session of ten days the twenty-third annual convention of the supreme lodge, A. O. U. W., came to a close yesterday. It will meet again the third Tuesday in June of next year at Buffalo, N. Y. The entire session of the lodge yesterday was devoted to the installation of the new officers for the coming year, at the conclusion of which Supreme Master Workman Riggs announced his selections for the standing committees for the ensuing year. They are very evenly divided among the states.

FOUR U. S. SAILORS  
ARE HURT AT KIELSTEAM LAUNCH ON THE CO-  
LUMBIA EXPLODES.

Accident Marred the Days Festivities —Emperor Laid the Keystone of the Canal at Holtenan With the Assistance of the Princess and State Officials—Yesterday's Doings.

Kiel, June 21.—The festivities at Kiel were marred by a distressing accident this morning, when a boiler on one of the launches of the U. S. man-of-war Columbia exploded, injuring four men. The Emperor laid the keystone of the canal at Holtenan this morning, by tapping it twice, followed by tappings by the Princess, members of the Bundesrath and other state officials.

Kiel, June 21.—The weather yesterday was magnificent and the greatest animation prevailed. At the earliest hours of the day thousands of persons were en route to Holtenan and Levensall in order to await the imperial procession from Brunsbuttel. The ships in the harbor were profusely decorated with bunting and the whole port presented a very picturesque appearance. The stands on the neighboring heights were filled with sightseers and masses of people who were unable to obtain seats were grouped here and there and everywhere.

It being the fifty-eighth anniversary of the accession of Queen Victoria to the throne of Great Britain, by special command of Emperor William a royal salute was fired at noon from all the German warships, which at the same time hoisted the British flag to the strains of the national anthem of Great Britain.

There was one feature of the procession which claims attention. As the French gunboat Surcouf passed the several points along the canal route it was greeted with hearty cheers and the different bands played the "Marseillaise." The French officers acknowledged the cheers from the shores by touching their caps and bowing, and when flags were dipped in honor of the passage of the Surcouf the ensign of the French gunboat was promptly dipped in acknowledgment of the courtesy.

Admiral Menard, the commander of the French squadron, entertained the officers of the German battleship Bayern on board the Hoche, the French flagship, in return for a similar courtesy extended to the officers of the Hoche.

London, June 21.—A dispatch from Hamburg says: "The demeanor of the French Admiral Menard and his officers toward Prince Henry of Prussia was cordial, and left the best impression upon the Kaiser's brother and Admiral Knorr, the German naval commander-in-chief. It is understood that the joint entry of the French and Russian squadrons into Kiel harbor was arranged beforehand by telegraph. It has certainly been taken in the light of a demonstration, which Russians, however, declare to have been merely a coincidence. The Bismarckian organs attribute it to French intrigue."

It is reported that the authorities of the Kiel arsenal intend to dismiss a number of socialist workmen who fraternized with the sailors of the French fleet, though on private vessels.

The Weser Zeitung publishes an alarmist article prophesying that the vessels passing through the canal will go aground, that the banks will give way and that many other accidents will occur to mar the festivities.

## Riotous Scene in Italian Chamber.

Rome, June 21.—The scenes in the chamber of deputies growing out of the socialist motion to extend general amnesty to persons condemned by court-martial for political offenses which led to an exchange of blows have not shaken the position of the cabinet. The chamber of deputies will now take up the work of passing the budget.

## For a Statue to Cromwell.

London, June 21.—The Chronicle announces that a private subscription for a Cromwell statue to the whole amount of \$15,000 was subscribed in a single day. The money was handed to the commissioner of works.

## French Warships at Beyruth.

## MAY MAKE TROUBLE

Missouri Free Silver Democrats Want a Convention.

St. Louis, Mo., June 21.—Chairman Farris of the Lebanon county democratic committee is here to confer with a number of leading democrats and free silver champions who are not in harmony with the state central committee. The object of the conference is to decide upon a call for a silver convention. Chairman Farris claims he has in his possession a demand from a majority of the counties of the state for a convention. If Chairman Moffit of the state committee refuses to issue a call for the convention, then Chairman Farris will act independently of the state committee.

## All Suspects Close in Death.

San Francisco, Cal., June 21.—Mrs. Spranger, who, with her second husband, was accused of murdering her first husband by slow poison, died at a resort in Santa Cruz Mountains yesterday of diabetes. The mother of the woman's first husband made the accusation, which is not generally believed.

NO THREATS MADE  
BY UNCLE SAMUELTHE MORA CLAIM STORY WAS  
EXAGGERATED.

The Most Strictly Courteous Diplomatic Language Used in Our Request For a Settlement of the Claim Difficulties in the Way—Idea is Not Popular in Spain.

Washington, June 21.—The first reports as to the urgency of the demand made by the United States on Spain for the payment of what is known as the Mora claim appear to have been exaggerated. The attitude of the United States was stated without any expression of demand or threat. It is said to have been made clear the department's note was due to instructions from congress and that it was desirable to have such response as would permit a communication to congress when it reconvened in December. The fact that Spain

SENOR MORA.

still has a minister in Washington indicates there have been no threats, as such expressions would have given a cause which governments are in the habit of following by a withdrawal of their minister. It is doubted whether anything will be done in the brief time before the Cortes adjourns two weeks hence. The Mora claim is said to be extremely unpopular in Spain, and the Spanish minister of foreign affairs who agreed on a settlement was compelled to leave the cabinet. The only action ever taken by the Cortes was in 1886, when a committee reported that if the claim was paid the United States should settle at the same time several large claims which Spain holds against the United States. The report of the committee was never acted on. One of Spain's claims covers damage done to Spanish shipping during the civil war, and another is based on the occupancy of Florida by Gen. Jackson at a time when it was Spanish territory.

## GLADSTONE DENIES IT.

His Confidence in the Rosebery Administration Is Unshaken.

London, June 21.—Mr. Gladstone has telegraphed to the Westminster Gazette a reply to the statement made by the London Times alleging the premier had withdrawn from his paining agreement with Rt. Hon. Charles P. Villiers, M. P., and saying Mr. Gladstone's action was occasioned by his disapproval of the policy of the Rosebery government, especially in regard to the Welsh church disestablishment bill. Mr. Gladstone says the statements are wholly untrue as regards his attitude toward the government and the Welsh disestablishment bill. He believes the government, in order to preserve its independence while the measure was in the committee stage, had canceled his pair, but it was done without his request.

## War in South America Likely.

San Jose, Costa Rica, June 21.—The French and German instructors for the army have arrived and entered upon their work. The belief there will be a war with Nicaragua is still prevalent. Those who should know say the negotiations have not advanced in a month, while preparations for a resort to arms continue. The people and the army are not ready for a war. The government does not wish to appear to be provoking a contest, but is doing little to avoid it.

## Burned the Books.

Denver, Col., June 21.—A committee appointed to investigate the books of the town of Highlands, Denver's largest suburb, has reported to the city council that certain books were burned by ex-City Treasurer Wygant, now county treasurer, that they might not be examined by the committee. Various irregularities of a sensational nature are said to have been discovered. The city attorney was directed to institute criminal proceedings against all parties involved.

## Preparing for the Big Fight.

Dallas, Texas, June 21.—A contract has been let for lumber which is to be used in the construction of the amphitheater to be reared for the Corbett-Fitzsimmons fight next October. ## South Carolina Liquor Cases.

Charleston, S. C., June 21.—A number of dispensary constables were up before Judge Simonton in the United States court yesterday to answer for contempt, the charge being that they had seized liquors brought into the state for the private use of citizens and in defiance of the injunction. Each case is to be heard separately.

## Grasshoppers Dying.

## CAUSED BY A FLOOD.

Many Persons Injured in a Railroad  
Wreck in Texas.

Houston, Tex., June 21.—The north-bound flyer of the Missouri, Kansas & Texas, was wrecked Wednesday at a point ten miles north of here. The wreck occurred at a branch of White Oak bayou, which is usually dry, but had been swollen by heavy rains. Engineer Henry Garrett, when within twenty yards of the bridge saw it sag and applied the air brakes. The engine remained on the track, while the tender, baggage-car, smoker, and two coaches left the track and turned over. Conductor Johnson walked back to Houston, a distance of about eight miles, and a relief train was sent to the scene with surgeons. The injured are:

J. W. Slocum, fireman, Smithville.  
John Graham, Cane Island, injured in back, hip, and side may die.  
T. D. Renfro, Denison, badly bruised in back. Renfro is a baggage-master and his home is Sulphur Springs, Ky.  
Butler Davis, New Ulm, injured internally and jaw broken.  
Allen Johnson, aged 5 years, of Trinity, hip broken.

The injured were brought to Houston and placed in the hospital. Fifty-two passengers were on the train, and, considering that two of the coaches were reduced to kindling wood, the escape from death is miraculous.

Byron by Bartley & Schaulis and is working toward their wells. The Droncy Lumber company has a large force of men fighting the fire and preventing it from burning 3,000 cords of bark.

## AMERICA WANTS IT.

China's Indemnity to Japan May Be Raised in This Country.

Washington, June 21.—Negotiations have been opened through agents in China of American interests with a view to having China secure from American capitalists the amount of silver required to pay the Chinese war indemnity of 200,000,000 taels to Japan. The indemnity is payable in Chinese taels, equal to the Mexican dollar, which is now worth about 53 cents in American money. Under the terms of the China-Japan treaty the payments are to be made as follows: Fifty million taels payable six months from the ratification of the treaty, 50,000,000 taels one year from that date, and the remaining 100,000,000 taels payable in six annual installments.

The first payment of 50,000,000 taels falls due next November. If American silver was used to meet the indemnity the amount would be equivalent to the silver coinage for two years while the Sherman law was in operation. It was reported some time ago China had raised the war indemnity in Paris by securing the guaranty of Russia and France. This has not been confirmed, however, and the loan has not yet been made. The present negotiations with Russia and France refer mostly to the extra indemnity to be given because of the renunciation of the Liao Tung Peninsula by Japan, and do not refer to the main loan, which the Americans wish to secure.

London, June 21.—A dispatch from guaranteeing the Chinese loan has been signed at St. Petersburg by the Russian minister of foreign affairs and the Russian minister of finance on behalf of Russia and by the Chinese minister plenipotentiary in behalf of China.

## CONDITION OF TREASURY.

The Deficit May Be Met by Increased Tax on Malt Liquors.

Washington, June 21.—According to the treasury statement the excess of expenditures over receipts for the current year up to date has been \$48,429,428, and the deficit will probably exceed \$50,000,000 by the end of this month, which finishes the fiscal year. Notwithstanding the heavy payments on whisky withdrawn in July and August of last year the receipts from internal revenue up to date, deducting the income tax, are \$8,870,233 less than for the last fiscal year. As there are only eight business days remaining of this fiscal year, it is evident there will be a falling off from internal revenue alone of over five millions. As a matter of fact, Commissioner Miller estimated the internal revenue receipts for the year at \$171,000,000. The actual figures will be \$30,000,000 less than that, which is about the average estimate made for the income tax proceeds. An increased tax on malt liquors will likely be proposed to meet the emergency.

## Falsified Bank Records.

Omaha, Neb., June 21.—Ex-Congressman Dorsey has been indicted by the Federal Court for falsifying national bank notes at the First National Bank of Ponca. An indictment last November was quashed. Another new indictment in the case of the Ponca Bank has been found against Pay Mattison and Frank M. Dorsey and Ezra Higgins, charging them with falsifying reports to the controller. Mattison is out of reach. The others have given bonds.

## FIELD DAY GAMES HELD AT MILTON

### COLLEGE STUDENTS INDULGED IN ATHLETICS.

Golden Eagle Base Ball Nine of Janesville Defeated With Ease By the Greys—Other Events and the Winners Thereof—Jubilee of the Iduna Lyceum.

MILTON, June 21.—The game of ball between the "Golden Eagles" of Janesville, and the "Miltons" was a corker. In fact, it was the best game ever played here. The visitors kicked about coming up here "to play a scrub nine who were not in their class," but the result showed that the Miltons were in a higher class than the Eagles. The plumage of these Golden birds was so completely smeared with whitewash by the home club, that even their friends could not recognize them, eight coats of calcimine being brushed into them by the country boys. The visitors put up a fairly good fielding game and were weak at the bat, their bunt hits failing to bring in runs. The home team hit the sphere and nailed the flies and shot hits their opponents in great shape. Two double plays were made by the Miltons, Rice, Greene and Holmes doing the job in both instances. The attempts of the Eagles to play the old chestnut of running the coacher in from third base was a dead give away and resulted in Catcher Greene's nailing two of the Eagles at the plate. The visitors scored their only run in the fourth inning while the home team got runs in the third, fifth, seventh and eighth, a total of 9.

Batteries, Rice and Greene, Sullivan and Atkins struck out: Rice 8, Sullivan 4; bases on balls Rice, 3, Sullivan 2, Atkins 3, Green 2; errors, Miltons 5, Eagles 11; base hits, Miltons, 13, Eagles 3; umpires, Vickerman and Kauffmann.

The exercises of field day were of interest and witnessed by a large number. Some thirty wheels appeared in the cycle parade. The following were the events, prizes and names of winners.

## TO RENEW OLD ACQUAINTANCES

Early Settlers' Picnic Will Revive and Cement Many Pioneer Friendships.

There is probably no time or place where more good true stories are told and more old-time friendships revived than at a meeting of the Early Settlers' society. People who went through the many hardships of developing a new country as the pioneers of this county did, formed fast acquaintances with their neighbors as they toiled day after day for the common good and advancement of civilization, that will never be forgotten. The basket picnic to be given by the society and their friends at Crystal Springs Park, Tuesday, June 25 will bring together all these old time friends and the day will undoubtedly be one of the most pleasant ever spent.

Good speaking and good music; vocal and instrumental will form a part of the day's programme and games of all kinds for those wishing to occupy time in that way. The steamer Columbia will leave her dock at 1:30 p. m. and every hour after during the afternoon. Twenty-five cents for the round trip will be charged while those coming by road will pay ten cents admission at the gate. Don't miss coming and remember its next Tuesday.

## BRIEF BITS OF LOCAL NEWS

Geo. H. La Monte, representing the Home Forum Benefit Order, is in the city for the purpose of establishing a forum. The order is a cooperative insurance organization, and admits both ladies and gentlemen. It combines both life and accident, and is deservedly popular. Beloit, Rockford and surrounding cities have strong organizations. Mr. La Monte is a son of the late Ex-sheriff La Monte, and will be remembered by many Janesville people. He will spend some little time in the city.

We can perhaps give you a few points on money saving. The question is very simple as laid out by us. A bargain if it be really a true bargain, is always a money saver. On our fifty cents on the dollar sale of shoes, we offer you a bargain that saves you half, any shoe in the house we will save you money on. Becker & Woodruff.

"A STITCH in time etc.", the old, old adage, but as far as we can see what is the use of ever taking a stitch on those old worn out garments when you can save time and money by getting one of those \$2 or \$3 boys suits. They are natty looking and made of good material. Just the thing for the boys. Frank H. Baack.

REMEMBER our boys' suit sale lasts only today and tomorrow. Better avail yourself of this opportunity. It won't come again soon. We are not only making those boys' suits at \$2 and \$3 but have also reduced the price on everything in the youth's department. Frank H. Baack.

ONE hundred girls from eight to fourteen years of age are wanted at the old "Columbia store" on the bridge. Instructions in singing and dancing free. Rehearsals daily at 3 p. m. The "Great Tycoon" of Japan will visit Janesville July 3 and 4, and can be seen at the Amphi theater.

If you know how good a cup of coffee made by Mrs. Abby from Diamond brand coffee is, you would lose no time in having that lady serve you some. She will be at Munger's grocery, No. 20 North Main street, today and tomorrow. Come and test her samples.

THAT \$1,000 beer, warranted strictly pure malt and hops, can be found only at M. M. Fardys' No. 10 Midway, by case. Claret, Reisling, Ports and all California wines, at \$1.35 per gallon.

SHOES that walk should be of good material. All of our stock is of the best make, and they all go at fifty cents on the dollar. Cheap, isn't it? Becker & Woodruff.

GROCERIES at cost; are about as cheap as you will ever get them unless some one gives them away. Saturday is our cost sale. A. C. Munger, 20 N. Main street.

A. C. MUNGER, the grocer 20 N. Main street, has a cost sale of groceries every month. Saturday is the day. Don't miss it.

DID you see them? Those traveling bags we spoke of a few days ago. Great variety of them at all prices. Frank H. Baack.

FOR SALE—1 second hand buggy in good repair. 1 road cart. F. A. Taylor.

WINDOW glass and putty at C. D. Stevens' pharmacy.

PURE Paris green at C. D. Stevens' Pharmacy.

FLOOR paint at C. D. Stevens' Pharmacy.

QUITE A PROGRAM FOR TONIGHT.

Rock River Encampment No. 3, I. O. O. F. at Odd Fellows' hall, North Main street.

## RAIN WAS NEEDED AT CENTER.

Tobacco Setting Is the Popular Work—School Picnic—Other News.

CENTER, June 21.—The recent rain has sent vegetation along at a rapid rate and tobacco setting is the order of the day. It seems that some will persist in raising the weed from force of habit no matter how low the price is. Corn is doing well, while oats and hay are bound to be but a fraction of a crop. Hog products and cattle are bringing remunerative prices, while butter is as low as usual for this time of the year. Professor Hemmingway's picnic in the "church park," on Friday, was largely attended, the East school and the Star school uniting. There were fully four hundred present, the Center band being in attendance under the leadership of Frank Snyder. The exercises by the scholars of the different schools were given in a masterly way, showing much drill and practice given by the teachers. A game of baseball was played between the juniors and seniors, the juniors winning by one tally. Mr. Burdick, of Janesville, being there with his camera, succeeded in taking views of different groups, the group of eight aged ladies being the most prominent. A hearty lunch was indulged in at noon and greatly enjoyed by the correspondents, while B. W. Snyder and John Goldsmith dispensed free lemonade and ice cream to all. Samuel Dean has purchased a new carriage lately, and may be seen driving southward each Sunday afternoon. Claude Ross is under the care of Dr. Chittenden. Beatie Fisher has lately graduated from Evansville seminary, and is home with her father. Fred Van Kirk was fishing at Indian Ford on Tuesday. W. H. Cory was in Milwaukee part of last week.

## FOOTVILLE BABE WAS IN DANGER

Horse Ran Away With It But No Damage Was Done.

FOOTVILLE June 21.—On Thursday last, while Mr. and Mrs. Hawk were preparing to go visiting, their horse started off with the carriage containing the youngest child two years old, and after running for nearly two miles, was overtaken by the excited father who proved himself to be quite a sprinter. The boy however, enjoyed the ride, and no damage was done to the horse or vehicle. The funeral of the late Mrs. Fred Bemis was held at the Grove church on Tuesday afternoon and was largely attended. The Rev. Mrs. Williams officiated. Mr. Bemis has the sympathy of a large circle of friends. Miss Allie Chase has just completed a very successful term of school in the Hammond district, and closed with exercises. Abel Barlow had the misfortune to lose a valuable horse last week, it having run a nail in its foot after which blood poison set in. Frank Pepper and wife attended the wedding of their cousin, Lane Smiley, at Beloit on Tuesday evening. Miss Grace Honeysett is making an extended visit among friends at Rockford. Foote Egerton was one of a large party, mostly students and musicians of Beloit college, that started for Europe on June 20. The tourists will first go to England and thence to the mainland, visiting the principal places of interest, and returning in time for the opening of the fall term of school. May he have a pleasant trip. The Footville band has been engaged to play at Orfordville on July 4. The people of that place may be congratulated on securing these musicians, as they furnish music of a high grade. E. Dunbar shipped a carload of fine porkers to the Chicago market on Friday. George M. Rice holds the ribbons over as fine a driver as travels the streets. A. W. Buck is spending his summer vacation with his parents here. Rev. Peterson made a business trip to Janesville on Monday. Rev. Davidson delivered a fine address at Grove church on Sunday morning and at the M. E. church on Sunday evening to good audiences, his theme being on keeping the Sabbath day. His sermon was full of sound advice. The missionary meeting at Henry Prichard's last Friday was an enjoyable one and all were entertained in a most hospitable manner. Mrs. Richard's niece Miss Flora helping her receive. Aden Ross was renewing old acquaintances on Sunday last, he having been away to college for the previous year. M. B. Owen has lately bought a fine new carriage as has also Henry Richards. T. W. Owen has started his meat wagon again for the season. The Ryan sisters have moved to Janesville. These ladies have left a wide circle of friends in this place. The woodmen will hold a social in the village on Friday night.

## CREDIT WHERE CREDIT IS DUE.

There is one thing that a woman can do better than anybody else in the world. She can iron a worn-out handkerchief so that every one of its ragged holes will be hidden from sight, and will only appear to view when her husband, who is a minister, takes that identical handkerchief out of his pocket when half-way through the sermon and calmly unfolds it to the eyes of the whole congregation.—Rockford Tribune.

## Narcoti-Cure

**CURES THE 'TOBACCO HABIT IN 4 TO 10 DAYS OR MONEY REFUNDED.**

Use All the Tobacco You Want Till Your "Craving" is Gone.

Narcoti-Cure is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in four to ten days. It leaves the patient in better health than before taking, and is warranted free from all injurious ingredients.

Narcoti-Cure is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

Narcoti-Cure is sold at the uniform price of \$5 a bottle, and one bottle cures.

Money refunded if a cure is not effected when taken according to directions.

The Narcoti Chemical Co.,  
Springfield, Mass.

Gentlemen:—Replying to yours of the 1st would say that I have used tobacco for 46 years and of late have consumed a 10 cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took Narcoti-Cure, although I have tried other so-called remedies without effect. After using your remedy four days all "hankering" for chewing disappeared, and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects, whatever. I am gaining flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say use Narcoti-Cure.

Yours truly, W. N. WAITE.

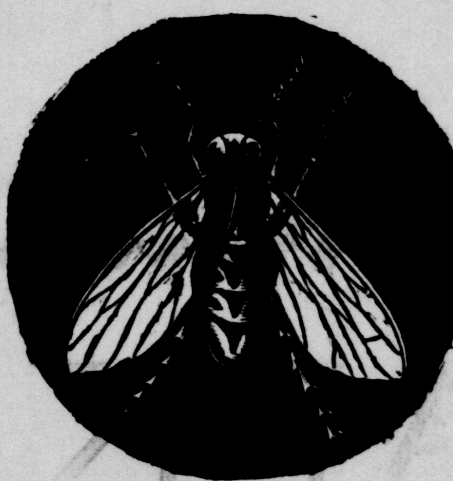

If your druggist is unable to give you full particulars about NARCOTI-CURE, send to us for Book of Particulars free, or send \$5 for a bottle by mail.

## THIS DAY IN HISTORY

1631—Captain John Smith, famous in Virginia settlement, died in London; born 1579.

1788—New Hampshire ratified the United States constitution, the ninth state, thus insuring its adoption.

1813—Battle of Victoria, Spain; Wellington routed Joseph Bonaparte.

1819—Jacques Offenbach, noted musical composer, born in Offenbach, Cologne of German-Jewish parents; died 1880.

1852—Friedrich Froebel, originator of the kindergarten system, died; born 1782. Froebel expounded his radical ideas on education in a volume and in a weekly paper before putting them to practice. The first kindergarten was opened in 1837 at Blankenburg, Thuringia. The freedom allowed children under his system was both applauded and denounced. A school founded by his nephew, Karl Froebel, at Hamburg led to a decree by the Prussian government prohibiting all schools in which the Froebel system prevailed.

1893—Senator Leland Stanford, the California capitalist, died at Palo Alto, Cal.; born 1824.

1894—Professor Herbert Tuttle of Cornell university died at Ithaca; born 1847.

## A GOOD INHERITANCE.

Fifteen states in the union have 5,000,000 savings banks, depositors who had to their credit the first of July, 1894, nearly \$1,800,000,000. In other words, fourteen per cent of the entire population of the country, carry a bank account averaging \$360 each. This vast amount of money is largely the property of laboring people, and yet the cry of downtrodden labor and capitalistic oppression, is frequently heard. Thirty-three per cent of the population belong to the people who toil with their hands. One-fourth of the number have joined the ranks of capital, by thrift and economy the same elements, practiced by the other three-fourths, would double the number of capitalists in the country in five years. There's money enough, and opportunities are not lacking. Less talk about free silver, and more attention to business will solve the problems of life and bring independence to many discontented minds. The saloons and the savings banks are strong rivals. The man who patronizes the latter at the expense of the former, has something tangible to show for it besides an abnormal appetite and a bloated annex. A bank account is a comfortable thing to possess, especially in the last half of life. It is not beyond the reach of any man whose ambitions go out in that direction. The young man on a salary of ten dollars a week, will find a thousand dollars on his wedding day, a better inheritance than a bicycle or an appetite for drink. Better in more ways than one, for aside from the possession is the discipline that created it, and this means an essential element in the establishing of character. The young man who saves a thousand dollars is well on his way towards wealth and a competency. Join the ranks of savings bank patrons, and you are on the right track.

## UNITED IN A LIFE TIME BOND

Crossman-North.

B. F. Crossman and Mrs. Ida North were quietly married at 4 o'clock yesterday afternoon at the home of Mrs. Briggs on Pearl street, Rev. Dr. Hodge of the Baptist church officiating and will at once take up their residence at the groom's home on Pine street. The bride has been in the employ of J. M. Bostwick & Sons and the groom is a retired farmer. Both have won many friends in Janesville who will wish them long life and happiness.

## Lowell's Midway Ax.

People who are acquainted with E. W. Lowell, the hardware hustler, will not be surprised to learn that he has decided to enlarge his business, and put in a department store. He has fitted up for this purpose the large double store on River street directly back of the Lowell Hardware Company's building, and already has in stock a fine line of first class shoes that he is selling at less than 50 cents on the dollar. He also has a complete line of the Janesville clothing companies goods at prices that will astonish you. Some lumber wagons and buggies will be closed out regardless of cost to make room for other goods. The Midway annex in connection with the hardware store will make one of the largest retail houses in the state. Watch the Gazette for prices.

## A Protest.

Bobby had been served with a very small share of pastry and he was doing his best to smother his resentment of the discrimination.

"I'm very much afraid," his mother said, "that this pie needs more shortening."

"Mamma," said the boy, in an audible undertone, "that isn't what my piece needs."

"Isn't it?"

"No. My piece needs lengthening."—Washington Star.

## Revenge.

"Then you reject me for my rival?"

"Yes."

"Aha. I owe the fellow a grudge, then. I have long owed him \$10. I will pay both debts simultaneously. He will fall dead."

Lighting his cigarette at the gas jet in the hall, he left with a loud, mocking laugh.

But the beautiful girl was not concerned. She knew he had not \$10 to his name.—Detroit Tribune.

## The Duo.

## SHE TALKED HIS EAR OFF.

Mrs. Jones is visiting her son-in-law, and entertains him with the latest gossip. Suddenly she interrupts her eloquence: "So you are sick, my dear son. Why, what's the matter?" "I have the earache." "Oh, I'm so sorry. Since when have you had it?" "Since you have come into the room."—Fliegende Blaetter.

## From the German.

Prof. Zweibeber, of the University of Bonn, is a very absent-minded man. He was busily engaged in solving some scientific problem. The servant hastily opened the door of his study and announced a great family event.

"A little stranger has arrived?"

"Eh?"

"It is a little boy."

"Little boy. Well, ask him what he wants."

## As They Impressed Her.

The little girl in the high chair was looking at the pictures of bicycle costumes as printed in the Sunday paper and inquired:

"What are those for?"

"They are for ladies to wear when they go out riding," was the reply. "And do the men wear the ladies' clothes?" she asked.—Chicago Tribune.

## He Died Too Soon.

"Doctor!" cried the distracted woman. "I gave my husband the wrong medicine, and—he died."

"Terrible! terrible!"

"Yes, yes! I shall never forgive myself! He had only \$1,000 insurance on his life, and he was going to increase it Wednesday!"—Atlanta Constitution.

Illness made Miss Mary Sorenson, of Orfordville, insane, and she will be committed to the hospital at Mendota. The young lady has been in poor health, and exhibited marked signs of mania for some time past. ## LIQUOR SUIT MAKES A LOT OF TROUBLE

### NEW CASE MAY CAUSE MANY COMPLICATIONS.

Legal Proceedings Act As a Bar and a Compromise Must Be Reached Or The Saloons May Be Closed—License Money Is Needed to Meet Obligations Next July.

The beginning of a new action to test the validity of the recent license election is going to make a peck of trouble for the council and the city as the proceedings by which the case is gotten into court acts as a bar to future steps until the case is decided. In the mean time the city authorities claim that the price of license is \$500 while the saloonists insist that it is but \$200. They will not pay more than that sum and the city cannot accept less than \$500. And there you are.

"This new move on the part of the saloon men to set aside the result of the special election which placed the license fee at \$500 is only a blind," remarked a prominent city official. "Many of the saloon keepers would like to pay their license in installments, one half the first of July, and the balance next January, but the council having denied them this, they now hope to get some ruling or order of court whereby the same end will be reached. I hardly think the common council will consider an application for license unless the whole fee of \$500 is paid, and should the court set aside the election or stay matters, it may be that the council will refuse to grant any licenses.

#### Causes Complications.

However, this new proceeding may work additional complications in city finances. Anticipating the receiving of the license money on July 1, estimated at \$18,000 to \$20,000, the city authorities based many calculations, and have obligations falling due at that time which must be met. If, by any legal proceeding the city is held down for a time, these obligations cannot be met, unless money is borrowed. As intimated before, the saloon men hope to have the election declared void, so that they can secure their licenses for the old sum—\$200. It is also morally certain that the common council, in the absence of such a decision will not grant a license for less than \$500, and that, too, with the money all in the hands of the treasurer. It is rumored that in case Judge Bennett decides against the saloon men in this case, the saloon men will drop it and submit. But in case the decision is in their favor, it is reasonably certain that the case will go to the supreme court, in which event it may be several months before any licenses are granted by the common council unless the maximum fee is advanced. The saloon keepers may also be given an opportunity to put up that amount of money or shut up their business pending the litigation.

#### FOUR MORE CONDUCTORS LET OUT

Northwestern Men Lose Their Situations On the Report of Spotters.

The Northwestern company still seems to keep close watch on their passenger conductors. The latest charge occurred yesterday at Chicago, and four well known men will lose their punch in consequence. The men have run through Janesville, and one of them still claims this city his home, but has had charge of a suburban train between Highland Park and Chicago.

## NEARLY FELL UNDER THE WHEELS.

Young Man Had a Narrow Escape at the Depot.

What came near being a serious accident happened at the Northwestern depot this morning. Few people get used to having the accommodation leave ten minutes earlier, and when they arrive at the depot just as the train is pulling out they "jump for it." A young man tried it this morning. He had a grip in his hand and made a leap for the back platform, but if the passengers, with the assistance of the brakeman hadn't caught hold of him he would have gone under the wheels. The conductors say that this has happened frequently since the change of time, and passengers little think of danger as long as they "make the train."

### TOUGH TIME OF IT FIXING A SEWER

Workmen Are Not Enjoying the Labor On Milwaukee Street.

The workmen engaged in repairing the east Milwaukee street sewer are not having a very pleasant time mending the breaks, and the contractor is getting sick of his job. Many people who have been watching the private sewer construction think it about time 'he city took hold of the matter, before any more of these lines are constructed. The city has been to considerable expense in securing a plan for city sewerage, but so far it appears the cost has been useless.

### RULES FOR STREET CAR MEN.

Supt. Proudfoot Issues Orders That Must Be Obeyed.

For some time past Supt. Proudfoot has been working on a new set of rules governing patrons of the line who have more "nerve" than money. This morning strict orders were issued to the effect that no former employees or other persons without a pass shall be allowed under any circumstances to ride without paying their fare. These orders must be lived up to by motormen and conductors or they will be discharged the superintendent says.

### WHOLESALE MADISON ROBBERY.

Janesville Officials Warned To Be On The Lookout For Thieves.

The Janesville police were notified last night to be on the lookout for thieves who made a raid on a Madison restaurant called the "Palace of Sweets." The robbers made a clean job of it, taking plenty of silverware, ten thousand cigars and thirty dollars in money. The Madison police are of the opinion that the men might have come this way.

### SLANDER CHARGE DIDN'T STAND

Another phase of the Ryan-Moore trouble over the renting of a farm by Ryan to Moore, was heard before Justice Phillips at Evansville. Mrs. Rose Moore caused the arrest of Ryan on the charge of having used abusive language, but Ryan was acquitted, the main witness for the prosecution having been impeached.

### GOOD HORSES SELL FOR A SONG.

Prices Are About Half of What They Were Two Years Ago.

Several very fine heavy teams of horses have been shown up for sale on the city market within the last few days, by Rock county farmers. The horses are offered at remarkably low figures compared with the prices of two years ago. Teams are now offered for \$250, which two years ago would readily sell for double that price.

### MANY NEW RESIDENTS ARE HERE

Census Enumerators Find Scores of People Who Were Not Listed.

One of the city census enumerators yesterday, at work in one of the new additions, secured two hundred and thirty-two names, where five years ago, the U. S. government enumerators got none. If this is any indication of the growth of the city, the fifteen thousand mark will be easily reached.

## TRIED TO SWINDLE REV. DR. M.G. HODGE

### SMOOTH GAME WORKED BY A STRANGE YOUNG MAN.

Forged The Clergyman's Son's Name To a Telegram Asking That \$15 be Sent Him in a Registered Letter—Letter is Sent and the U. S. Marshal Notified to Be On Hand.

A very clever, but at the same time unsuccessful attempt, was made today to play a confidence game on Rev. Dr. M. G. Hodge, and rob him of a small amount of money. However, the doctor was on his guard, and did not swallow the bait, although the game was very well worked.

Last Monday a very well dressed young man called on Colonel Clark, son-in-law of Dr. Hodge, and inquired for the address of the doctor's son, Fred M. Hodge, who is secretary of the Kalamazoo Paper Co., at Kalamazoo, Michigan. The address was given the stranger, and he then asked about the residence of Mr. Phillips, telling Colonel Clark that he had called on Dr. Hodge and he could direct him to Mr. Phillips from that point, which Colonel Clark did. The stranger then departed, saying that he and Fred Hodge were old schoolmates, and that he expected to meet him here, but not meeting he would write to him. Nothing more was thought about the affair until this morning when Dr. Hodge received a telegram from Dubuque, signed Fred M. Hodge, stating that he had lost his pocket book and money, and requesting that fifteen dollars be sent him in a registered letter.

This dispatch was shown to Colonel Clark, who at once decided that it was a forgery, and wired Mrs. Fred Hodge asking if Fred was at home. A few minutes after this telegram was sent, Dr. Hodge received a dispatch from his son dated at Kalamazoo informing the doctor of the birth of another grandson. This convinced the doctor and Col. Clark that some one was playing a little confidence game, so Patrolman Hogan was consulted. The United States Marshal at Dubuque was then notified to arrest a young man calling for a registered letter addressed to Fred M. Hodge, and Colonel Clark at once wrote a letter as requested. It read: "This will introduce you to the United States marshal." Officer Hogan is well acquainted with the marshal and says he is quite certain that the swindler will be captured when he calls for his mail.

## BUST OF SHAKESPEARE.

## The Interesting History of the Davenant Head of the Poet.

When Lincoln's Inn Fields was still a rural suburb, where aristocratic and wealthy people lived, says the St. James Budget, there stood on the southern side, or "on the back side of Portugal Row," close by an old inn called the Grange, a famous tennis court, together with one of those great and stately "inns of court" from which the name of that locality was obtained. Early in the year 1660, or late in 1659, Sir William Davenant obtained possession of the tennis court—then called Gibson's—converted it into a handsome and roomy theater, which a contemporary, Pepys, said was the "finest playhouse that ever was in England." Over its two chief entrances recesses were made to accommodate busts, and these, apparently, were those of the manager's godfather, and his predecessor as poet laureate, Ben Jonson. At that time many of Shakespeare's younger friends were still alive, and so were old actors who had been the poet's fellow players, and so was Shakespeare's youngest daughter, and his granddaughter, and old playgoers who had seen the poet play. To all of these Shakespeare's bust would be attractive, and many of them doubtless often paused on their way past, into or out of the theater to look up at it. Presently came the reign of opera in the Italian style and comedies in the French style, and Shakespeare was again neglected. The men who remembered the mighty poet were becoming very few, the stories that were told of him were being fast forgotten, and the busts over the theaters were no longer the objects of interest they had been. In 1688 Sir William Davenant died. Sir William had looked his last upon the beloved bust above the theater door, and after his death we gradually hear less and less of Shakespeare and his works and more of dancing and singing and coarse buffoonery. If, then, Shakespeare's plays were contemptuously neglected, what wonder is it to find his personal relics equally disregarded? When in 1714 the Duke's theater ceased to be a playhouse and became a barrack, the busts over the entrance remained. They were portraits of men unknown; and when (probably about that time) the entrances were bricked up, they were lost to sight altogether. When the building was deserted by the military it became an auction-room and warehouse, and afterward, in 1737, Messrs. Copeland and Spode converted it into a pottery warehouse. In 1845 the old building was removed for the erection of the College of Surgeons, and in 1848, when its last remains were also removed, the long-forgotten terra cotta busts once more saw daylight. Before their real value and importance were discovered the workmen had thrown down the bust of Jonson and utterly destroyed it. From this fate the Shakespearean bust was preserved by Mr. Clift, whose daughter afterward became the wife of the late Sir Richard Owen, to whom it was bequeathed, and from whom, thanks to the kindness of his son, Rev. Mr. Owen of Richmond, and Sir William Flower, it has now become the most valuable of the many valuable Shakespearean relics in the library of the Shakespeare Memorial at Stratford-on-Avon. There we may hope its continued existence will never again be endangered by that ignorance and careless indifference through which we had so narrow an escape of losing it altogether.

## HOW THEY FOOLED CHARLEY.

## Louisville Friends Play a Practical Joke That Is Not Bad.

Friends of Charley Leffert, a popular young railroad clerk, are telling a good story at his expense, says the Louisville Commercial. They say that last Sunday night he took a young lady to church. When they entered the church a few drops of rain had fallen. Charley had no umbrella. When church was over several wags in the neighborhood stood in front of the church door with their umbrellas raised. This gave the congregation who were about to leave the church the impression that it was raining. The people in church were afraid to venture out, although the stars were shining brightly. Of course, Charley and his girl were among those who anxiously waited for the rain to cease, but the wags hung about the door with their raised umbrellas, and no one ventured out. Then to do the proper thing Charley gave a little boy a dime and chased him to the nearest drug store to telephone for a coupe. The coupe arrived in due time and Charley pushed his way through the crowd. When he reached the pavement and looked up the stars shone bright and beautiful, but it was too late to dismiss the coupe. His ride of three squares on a beautiful night cost him \$1, and now some of the church people say Charley was putting on style.

## Too Many Pictures.

Are the works of the best modern literary artists improved by illustration? Can an artist with his brush or pen add anything to the well developed characterization of our successful novelist? In other words, is it not the literary art of a master amply sufficient to portray all in his book that is charming or thrilling or pathetic or humorous? I believe that it is, and also that it is a literary crime for the average illustration to inject into the pages of a great work of fiction, of whose creative forces he can know no more than the reader. Some of this sort of illustration is amazingly clever, but most of it is just the opposite. To distinguish the pictorial opportunity in a book manuscript is a work requiring rare distinction, and too many of our illustrators, with the approval of the publishers, take their cue for a picture from such inadequate and puerile suggestion as that conveyed in the familiar climax of love stories: "And she fell on his breast and wept tears of unutterable joy."—Sidney Fairfield, in Lippincott's.

## Be Content.

There was a boy who only wanted a marble. When he had the marble he only wanted a top; when he had a top he only wanted a kite; and when he had a kite, top and kite he was not happy. There was a man who only wanted money; when he had money he only wanted a house; when he had a house he only wanted land; when he had land he only wanted a coach; and when he had money, house, land and coach, he wanted more than ever. He content with little, for much will have more all the world over.

## A Most Magnificent Heirloom

Is health. No gem in tiara or coronet is so precious. Per contra, a hereditary tendency to disease, often proves a fatal legacy, since the most trifling causes may fertilize the latest germs of ill health, and render the fruitage deadly. An inherent transmitted weakness of the physical constitution is more effectually opposed and counteracted by Hostetter's Stomach Bitters than by any other safeguard. Digestion and assimilation promoted, due biliary secretion, action of the kidneys and bowels insured, are so many guarantees of permanent health, and these are the consequences, among others of like importances, of a resort to the Bitters. This medicine also prevents and remedies malarious complaints, nervousness, chronic insomnia, rheumatism and neuralgia. Such warnings as loss of appetite and sleep, too, should not be disregarded. The Bitters will restore both without fail.

## WHY WE SLEEP IN CHURCH.

## Cause of the Drowsiness Which Comes Over One Listening to a Sermon.

I have a scientific explanation of the somnolence which overtakes people in church. I used to think that it was the dullness of the sermon which provoked the sleep of the congregation. One remembers the actor who gave a private reading of his play to a company of his friends, and when he was done asked their opinion. At last, when one began to speak the playwright interrupted: "You can have no opinion; you were asleep." "Ah," replied the critic, "do you not know that sleep is an opinion?" And sleep certainly is an opinion, and not an especially flattering one, says a writer in the Pittsburgh Dispatch. But it may not mean that the sermon is really dull. I have seen people sleep in church under all manner of circumstances, and in the hearing of the most admirable preachers, preaching the most eloquent sermons. I saw a man asleep when Mr. Spurgeon preached. Mr. Moody has more than once called out to have a window opened to wake up a somnolent member of his audience. Canon Knox-Little is accounted a preacher of more than usual earnestness and power, yet I remember once in Worcester seeing a minister, clad in surplice and stole, and seated in the chancel, go straight to sleep while the canon preached, disregarding the eyes of the congregation. And once when Mr. Gore delivered a sermon in that great abbey where he is now canon, people who sat in the neighborhood went to sleep in shoals. No; my theory is that most times when the congregation sleep during the sermon they are simply hypnotized. For, consider the situation. Most of the conditions which the hypnotist desires are present. There is a dim and subdued light in the room; the atmosphere is somewhat close, the temperature is high; somewhere behind the speaker, in a position which compels the eyes of the congregation is a jet of gas or a sharp gleam of electricity, into which they look as the sermon proceeds, and the preacher goes on and on and on, in a gentle and monotonous voice, and down and up like a mother's lullaby, and, behold, our eyelids are pressed down against our will by soft invisible fingers, and everything is deliciously vague and far away, and suddenly people stand up with an awakening sound about us, and the preacher is pronouncing the ascription at the end of his sermon, during whose wise and eloquent paragraphs we have humbly slept. This is hypnotic sleep. And it is the fault, not of the preacher, but of the whole construction of our ill-ventilated and absurdly lighted churches.

## IN THE STROKE WARD.

## Latest and Most Improved Method for Treating Heat Afflictions.

Now that the sunstroke season is drawing near the House of Relief, better known as the Hudson Street hospital, is getting its sunstroke ward ready for action. This ward is as complete, in point of apparatus and appliances, as any similar institution in the world, and from the time the patient enters the room he is handled by means of electrical machinery more gently than would be possible even with the trained hands of the doctors and nurses, says the New York Sun. Of late treatment in sunstroke cases has altered materially. The old treatment included warming drinks and hot applications to the body, with a view to drawing the heat from the head. Now the patient is immersed in very cold water, and kept so until the abnormal temperature decreases. Some remarkable cures have been effected by this method of treatment. The new apparatus is designed for the transfer of the patient to the bath. It is worked entirely by electricity. A sort of hammock suspended, not from the ends, but from the sides, between iron bars, is the receptacle for the sufferer. The end of this hammock at which the head lies is higher than the other end. The bars are suspended by chains from wheel trucks overhead running on tracks, and both the motion backward and forward of the trucks and the raising or depressing of the hammock by means of the chain are controlled by the electric apparatus. On the entrance of the patient the hammock is lowered and he is gently slid from the stretcher into it. A turn of the motor wheel lifts him, and another turn sends him moving along until he is directly over a tub containing water iced to the desired temperature. Then the machinery lowers him slowly into the water. Ice is packed around his head, and he is left there until his temperature is lowered to a point where it is deemed safe to take him out. Then the machinery gently lifts him again and transfers him to a pallet at the side of the room. If a second ice bath is not necessary the patient is then removed to one of the adjoining rooms.

## PEPPER IN HIS EYES.

## Daring Robbery of a Foundry Paymaster at Conshohocken.

A robbery that was both daring and successful occurred at the foundry of John Wood, Jr., Conshohocken, says a Norristown, Pa., special. Alfred Oxley, paymaster and bookkeeper for Mr. Wood, was making up the weekly pay of employees when a strange man entered and asked for Mr. Wood. On being informed that he was at Norfolk, Va., he took a package of black pepper from his pocket and threw it in Oxley's face. Blinded by the pepper, the paymaster staggered and was followed by the man, who struck him with his fist and felled him to the floor. Before he could arise or call for help the man grabbed a bag of money and was making for the door, when the bag fell on the floor and half of the contents, \$800, was scattered about. Not stopping to gather up the portion on the floor, the man again grasped hold of the bag and made his escape. Descriptions of the man were telegraphed in different directions, and subsequently a telegram was received stating that a man answering his description had alighted from a Pennsylvania railroad train at Powelton avenue station, Philadelphia, and disappeared.

## Precaution.

The emancipated woman was just leaving the club. "Here," said she to the cashier, "take this roll of bills and lock them up in the safe for me." "You are very cautious," said a companion. "Yes. My husband has gotten into the way of going through my bloomers when I am asleep, and I have to be."—Washington Star.

## All the Same to Him.

Starting from her sleep, she seized her husband convulsively by the nose and one eyelid.

"What do you wake me for?" irritably demanded the head of the house. "Settle it between yourselves."—Detroit Tribune.

## Of the Latest Style.

"That's a pretty pen-wiper you were kind enough to leave on my desk," said Mr. Hammett to his wife. "It's very ornamental if it is a trifle small."

## Excursion to the World Famed Dells of Wisconsin.

This country has a great variety of wonderful scenery, but none more beautiful and romantic than the famous Wisconsin Dells at Kilbourn, on the Chicago, Milwaukee & St. Paul Railway. There is nothing anywhere within civilized lines to equal the grandeur of the weird scenery abounding for a stretch of seven miles, from Kilbourn northward on the Wisconsin river. Its bold, rocky outlines towering skyward, assume shapes in conformation perfectly amazing. It canons and witches' gulch are features never to be forgotten, for there is nothing like them in America. Do not fail to enroll yourself as one of the great number who will take advantage of the excursion to this resort on Wednesday, June 26, over the Chicago, Milwaukee & St. Paul Ry. The fare for the round trip, which also covers the steamboat trip on the river, is but two dollars.

## WELCOME WORDS TO WOMEN.

Many times women call on their family physicians, suffering, as they imagine, from dyspepsia, another from heart disease, another from liver or kidney disease, another with pain here or there, and in this way they all present to their easy-going doctor, separate diseases, for which he prescribes, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disorder. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pierce's Favorite Prescription, directed to the cause would have promptly cured the disease.

Mr. HARRY TAPPAN, of Reynolds, Jefferson Co., N. Y., writes: "For two years I was a sufferer. A part of this time had to be carried from my bed. Was racked with pain, had hysteria, was very nervous, no appetite and completely discouraged. A few bottles of 'Favorite Prescription' effected a perfect cure." Sold by all dealers in medicines.

## SHAKERS AND DOCTORS TALK TOGETHER.

In his able work entitled "Longevity" published a few years ago, Dr. John Gardner, of England, predicts that a vegetable age, it will yet be found that shall so retard these changes that bring about old age as to prolong human life much beyond its present limit.

Acting, perhaps, upon the impulse produced by this thought, many eminent physicians have called from time to time upon the Shakers of Mt. Lebanon to inquire of them concerning the secrets of medicinal plants, in which these sincere simple-minded and God-fearing people are known to be wise and skillful beyond all other men.

The Shakers willingly told what they had learned and in turn received much valuable information about disease, which they at once made practical use of. The most important point was that if a genuine and certain remedy could be found for indigestion and dyspepsia, and the ailments growing out of it, a long step would be taken in the right direction. Old age, said these physicians, begins in a failure of the digestion, and so do most diseases at any or all periods of life. The result of these consultations was the discovery by the Shakers of the desired specific, made wholly from herbs and known as the "Shaker Digestive Cordial." Its action is magical and worthy of its origin.

When there is distress after eating, heartburn, sick headache, bad taste in the mouth, biliousness, weakness and weariness, cold hands and feet, aversion to food, nervousness, or any other symptoms of dyspepsia, the Cordial will prove its curative virtues. Behind it is the reputation of a people who have never defrauded or deceived their fellow men.

In order to test whether this remedy is adapted to your case at practically no cost, you may procure a trial bottle for ten cents of almost any druggist.

#### Grant Increase of Wages.

Chicago, June 21.—The announcement has been made by the Illinois Steel company that an advance in wages of 10 per cent will go into effect next month. This will affect 7,000 employees now working in the plants at South Chicago, North Chicago, Joliet and Milwaukee. The raise is entirely voluntary, and is due to the great activity in the iron trade. Officials of the Illinois Steel company assert that their men are being paid as high rates as any class of workmen in similar occupations in the country. A committee, which was recently sent to visit the eastern mills, confirms this statement.

#### Fire at Waterbury, Conn.

Waterbury, Conn., June 21.—The extensive plant of Randolph & Clowes, manufacturers of sheet brass and copper tubing, of this place, was partially destroyed by fire yesterday but the officers say they will resume operations in a few days.

#### Successful Miners Killed.

Deming, N. M., June 21.—Eight American gold miners on the Yaqui river in the state of Sonora, Mexico, were murdered by Indians about two weeks ago. News of the killing has just reached here. The names of the men in the party are not known. The miners had been very successful in obtaining gold, and the killing was probably done for the purpose of robbery.

#### Great Fire at Seattle, Wash.

Seattle, Wash., June 21.—At 1:30 o'clock yesterday fire destroyed about \$200,000 worth of property belonging to the Seattle Consolidated Street Railway company. The company's power-house, a brick structure, is totally destroyed, together with twenty-five cars. The electric plant, which was the most complete in the northwest, is a ruin.
